

CHROME HEARTS

eyewear collection

The Chrome Hearts brand began as an appreciation of handmade leather motorcycle riding gear and has quickly become an international luxury lifestyle brand. The product line is vast and includes boldly designed jewelry, custom clothing, accessories, and furniture, hand made by skilled artisans from the most exotic materials available. The eyewear line is without equal and is the most technical in the marketplace. Our designs incorporate the finest optical materials with Italian leather, exotic woods, genuine .925 sterling silver motifs, and precious gems. Even the cases are hand stitched Italian leather, a fitting guardian of such special eyewear.

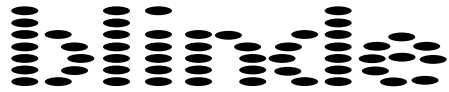

KIESELSTEIN-CORD EYEWEAR

Kieselstein-Cord eyewear is inspired by the jewelry, sculpture, and accessories created by world renowned designer, Barry Kieselstein. Genuine .925 sterling silver motifs, Italian leather, natural buffalo horn, and precious gems are lavishly applied to frame chassis made of the highest quality optical grade titanium and fitted with the best lenses in the business. The result is truly a piece of jewelry for your face and a unique eyewear statement for those who appreciate the very best.

Blinde eyewear is our sport/fashion line which got its start as the official eyewear of the Matrix series of movies. While that was several years ago, Blinde has steadily grown and has attracted a huge following of celebrities and fashionistas alike who appreciate the bold designs and bullet-proof construction that are the cornerstone of this eyewear line. Each Blinde Frame is hand made from the highest quality titanium or Japanese/Italian Zyl plastic. High quality mineral glass, glass polarized, and CR-39 lenses are used in the line.
